ROCKFORD, ILL.

Wholesale Florist.

Friends and Patrons:

THE season of 1897 opens with unusual prospects for the speedy adjustment of business in all lines of trade. In view of this renewed activity, we have the past summer added some 25,000 square feet of glass to our already extensive establishment, which now consists of 80,000 square feet of glass, all put up in the very best "up-to-date manner." Our houses are open to visitors, and we hereby extend an invitation to all florists to call and see us.

Novelties contained in this list are the cream of '97 introductions from the various specialists, and have received numerous certificates wherever shown.

Forcing Roses.—These are grown in large quantity, and I offer only clean, healthy and vigorous young fall and winter rooted plants—such as only first-class growers would use for cut-flower purposes. My stock is in exceptionally fine growing condition.

General Florist Stock.—In this list will be found a full collection of all "up-to-date" varieties of Roses, Chrysanthemums, Carnations, Pelargoniums and other stock, such as florists find both pleasure and profit in handling.

Special Attention is given to careful labeling and *light packing*. We shall do our best to make every shipment satisfactory and profitable to you.

Complaints, if any, should be made upon receipt of goods.

Terms of Sale.—Five per cent. discount for cash with orders; all bills subject to draft in 30 days, unless otherwise agreed upon.

Orders From Unknown Parties must be accompanied with cash or satisfactory reference.

Five or more plants at hundred rate, except where quoted by the dozen.

Rockford has exceptional facilities as a shipping point. The following express companies have offices here: Adams, American, United States, Wells Fargo, Pacific, and Southern.

New Low Express Rate on Plants.—Under the ruling of leading express companies, plants packed in closed boxes or baskets are now being carried at the "General Special" rate, which means a reduction of twenty per cent. from the regular merchandise rate. Plants do not need to be prepaid to secure this reduction. Before paying express charges on your order *be sure you save this twenty per cent. discount.*

Thanking you for past favors and soliciting a continuance of same, I am,

Yours respectfully,

H. W. BUCKBEE.

Novelties for 1897.

Ready for distribution March 1, 1897.

50 cents each, \$5.00 per doz., \$35.00 per 100, except where noted.

Evangeline—(May). Pure white, similar in form to Kiote, but more graceful, undoubtedly the finest novelty of the year. Of this variety the Florist Exchange of Nov. 7, page 998 says: "In *Evangeline*, Mr. May put up the gem of the day. This variety scored 95 points and was perhaps more generally admired than any other kind on the table. Its type and form can be described by simply calling it a white Kioto, its size is 12 inches over from stem to stem; a solid mass of petals; individual petals measure $4\frac{1}{2}$ inches; foliage and stem perfect. Received certificate at Boston, New York, Chicago, Philadelphia, and Orange, N. J. Price 60 cents each, \$6.00 per dozen.

Midge—Very dwarf 18 to 24 inches in height, flowers very double pure white, stem very short. It resembles *Mme. F. Bergman*; but being as early and a larger flower, is an improvement on that popular variety. Certificated by the C. S. A., Oct 20th.

Merula—A dwarf semi-early pink, 3 feet in height, maturing Oct. 20th to 25th, terminal buds preferred. A beautiful shade of light pink, very double, flowers 5 inches in diameter and nearly as deep, stem and foliage good. Certificated by the C. S. A.

Mrs. John J. Glessner—A light yellow very distinct in form, broad petals opening in a whirl, which

when matured assume a convexed form, tips turning backward and twisting in all directions, giving a very irregular outline. Flowers 7x7 inches in diameter, a perfect ball; $4\frac{1}{2}$ feet in height, maturing November 1st; robust habit, stem very stout and short when terminal bud is selected. (Edward Hatch x Mrs. Jerome Jones.) Recommended for certificate by the C. S. A. at Chicago and Cincinnati.

Chito—A good back row flower for exhibition collections. Strap petal yellow ground with fine red stripes giving it a bronzy appearance. Maturing November 1st, 4 feet, 7 inches in diameter. Good from either bud. From the same cross as *Modesto* and equally large. Certificated by the C. S. A.

Mrs. Martin A. Ryerson—(Snowball x Mrs. H. McK. Twombly.) Recommended for certificate by the C. S. A. at Chicago and Springfield, also winner at the latter place of the \$50.00 prize for seedling, scoring the highest number of points. A pure white, petals narrow; from crown bud it is reflexed and from terminal the center builds up with interlacing, incurved petals, making a very high flower distinct in form. Maturing November 10th to 15th; $6\frac{1}{2}$ x $6\frac{1}{2}$ inches.

Sunstone—(Col. W. B. Smith x The Queen.) Robust habit like "The Queen." Petals hook up at the end showing the light straw reverse, upper surface bright yellow shading to red at the base. The flower being flat shows the three colors to advantage, the most beautiful combination of colors yet produced. 5 feet high,

7 inches in diameter; best from terminal. Awarded first-class certificate by the N. C. S., England, and was one of the five vases of ten blooms each that received first prize at Ft. Wayne, Indiana.

Western King—(Niveus x Edward Hatch.) This, we believe is the best white yet introduced for commercial or exhibition blooms, or for plants either bush or single stem. An incurved flower with outer petals slightly reflexing, pure white. Maturing November 1st, height 3½ to 4 feet, good from either bud. Stem and foliage excellent. No variety has been as highly commended. In 1895 was recommended for certificate by all five committees of the C. S. A., and winner of the Silver Vase at Butte, Mont., as best seedling. Last fall it received its just favor in London, England, October 28, where it was awarded certificate from the N. C. S. In this country it received cash prize at Syracuse as best seedling and at Philadelphia as best white seedling, besides being again recommended by all five committees of the C. S. A. and at the following exhibitions: Worcester, Springfield, Providence, Madison, Philadelphia, Reading, Cleveland, Cincinnati, Louisville, Chattanooga, Indianapolis, Chicago, Milwaukee and Toronto.
